HVAC SOLUTIONS

ADVANCED HVAC SOLUTIONS

KAISAI offer includes reliable and comfortable products which meet requirements of the specific HVAC market. KAISAI devices are regarded as the most advanced solutions for public facilities and residential buildings.

INVERTER TECHNOLOGY in KAISAI air conditioning units impacts lowering power consumption and therefore cooling costs. This technology allows more silent operation and quicker achieving desired temperature in the facility.

Products include a numerous features which **USER COMFORT**. Moreover, additional control features have been implemented into devices to make the air conditioning management more pleasant.

WIFI as a standard provides comfortable control through the free app (mobile phone, tablet) and allows the user to control all parameters 24 hours per day from any place in the world.

T RUN TIMER

HIGH QUALITY ENVIRONMENTALLY FRIENDLY PRODUCTS

KAISAI devices are environmentally friendly which is proved by the energy-saving feature. They meet the European 20/20/20 Action Plan requirements and all guidelines stated in the Eco-Design-Directive.

R32 REFRIGERANT in KAISAI air conditioners has low global warming potential what positively affects the environment and meets the EU legal requirements.

ADVANCED FILTERS guarantee clean and fresh air in the room. Filters absorb small particles of dust, bacteria, fungi and micro-organisms, leaving the air clean and healthy.

KAISAI products are **ENERGY-EFFICIENT**. Due to selected features, it is possible to save energy at the level of 80%.

WALL-MOUNTED AIR CONDITIONERS

R32

NEW!

■ KAISAI FLY | AIR CONDITIONING WITH R32 REFRIGERANT

R32 new refrigerant

WiFi standard

A⁺ energy saving

Wall-mounted air conditioning units with R32 refrigerant which improves product's efficiency and energy-saving. Devices have a stylish panel which suits each interior, and due to the WiFi feature, the air conditioning control is nice and easy.

- Operating mode: auto, cooling, heating, ventilation
- High-efficiency fan with DC motor
- Programmable timer
- WiFi as a standard

Operating temperature range
for heating and cooling modes:

-25° → 30°

-15° → 50°

■ KAISAI FOCUS | AIR CONDITIONING WIFI AS A STANDARD

A++ energy saving

WiFi standard

remote controller with temperature sensor

Energy-saving wall-mounted air conditioning units of Focus series have WiFi as a standard, and advanced pilot allows to adjust blowing power and 3 other features: SELF-CLEAN of the evaporator, steady HEATING 8°C and FOLLOW ME – temperature sensor built in the remote controller.

- Operating mode: auto, cooling, heating, ventilation
- High-efficiency fan with DC motor
- Programmable timer
- WiFi as a standard

Operating temperature range for heating and cooling modes:

-15° → 30°

-15° → 50°

■ KAISAI ECO | COST EFFECTIVE CHOICE

A++ energy saving

quiet work

\$ competitive price

Wall-mounted air conditioning units of the SPLIT series have modern design and wide range of heating and cooling operating temperatures. Due to advanced compressor and DC motors, these devices are energy efficient and silent.

- Operating mode: auto, cooling, heating, ventilation
- High-efficiency fans, indoor and outdoor units with DC motors
- Steady heating at 8°C feature
- Temperature sensor in remote controller
- Self-clean of the evaporator

Operating temperature range for heating and cooling modes:

-15° → 30°

-15° → 50°

■ KAISAI PRO | WARM SIDE OF AIR CONDITIONING

A++ energy saving

WiFi standard

NORDIC - heating mode

Modern SPLIT air conditioning unit of the NORDIC type has high energy efficiency factors and WiFi as a standard. Perfect solution for heating houses and facilities located in the cold climate zones.

- Operating mode: auto, cooling, heating, ventilation
- High-efficiency fan with DC motor
- Adjusting the blowing power with a remote controller
- 12 grades of indoor unit's fan speeds
- WiFi as a standard

Operating temperature range for heating and cooling modes:

-25° → 30°

-15° → 50°

PORTABLE AIR CONDITIONERS

■ KAISAI KPPD | AIR CONDITIONING WITH HEATING MODE

LED display

automatic
louver

timer

A device heaving cooling mode with 3.5 kW capacity , built-in heating pump with capacity of 2.9 kW. Air conditioning unit is a perfect solution for those who value comfort, mobility and easy installation.

- Elegant design
- Modern remote controller
- Energy class: A+
- Multidirectional wheels
- Accessories for individual installation

■ KAISAI KPC | ATTRACTIVE MOBILE SOLUTION

LED display

self-diagnosis

timer

Device with 2.64 kW cooling capacity is dedicated to the users who seek mobile air conditioning solutions, easy installation and low price.

- Modern remote controller
- Energy class: A
- Multidirectional wheels
- Accessories for individual installation
- Flexible warm air outlet hose

HEAT PUMP

■ KAISAI KHP | ENERGY-SAVING SOLUTION

A⁺⁺ energy saving

R134a refrigerant

Air - to - water type device dedicated to provide warm tap water in a typical-sized single-family house. Equipped with intuitive advanced controller and anti-freeze feature which prevents icing and frosting.

- Rated heating capacity: 2.4 kW
- Built-in electric heater with capacity of 1.5 kW
- Stainless steel tank with 270 liters capacity
- Additional ability of cooling indoor air

AIR CURTAINS

NEW!

■ KAISAI PLATINUM NEW

↕ 4m max. installation height

🔊 quiet work

📶 wireless remote controller

- Housing made of furnace-painted aluminum
- Power supply: 230V // 400V
- Width (cm): 90 // 120 // 150

Elegant and reliable devices with DC motor which may be installed max. 4 meters above the floor level. Air curtains with adjusted air flow are available in 3 different sizes, with or without the heater.

■ KAISAI GOLD

↕ 3m max. installation height

🔊 quiet work

📶 wireless remote controller

Silent and reliable devices which may be installed max. 3 meters above the floor level. Air curtains with adjusted air flow are available in 4 different sizes, with or without the heater.

- Housing made of furnace-painted aluminum
- Power supply: 230V // 400V
- Width (cm): 100 // 120 // 150 // 200

■ KAISAI SILVER

↕ 3m max. installation height

💰 competitive price

📶 wireless remote controller

Efficient devices which may be installed max. 3 meters above the floor level. Air curtains with adjusted air flow are available in 3 different sizes, with or without the heater.

- Housing made of powder coated steel
- Power supply: 230V // 400V
- Width (cm): 100 // 150 // 200

CHECK WIDE RANGE OF KAISAI OFFER

■ Commercial devices are a suitable solution for large facilities, such as hotels, restaurants, offices, conference rooms, commercial facilities. The best solution for these places is:

Floor/ceiling
air conditioners

Cassette
air conditioners

Ducted
air conditioners
